Dear Supporter

This year we are celebrating a special anniversary; 15 years of saving lives. As we begin our 15th year we have attended over 16,000 missions. Our highly skilled crews go out to people in East Anglia in their hour of need, be it through accident or medical emergency. This year we will take delivery of our brand new helicopter, the EC145 T2, which has more cabin space and greater flying power. This means that we can begin a two pilot operation which allows our two expert clinicians to focus totally on the needs of the patient, whilst the pilots concentrate on the flying. The extra power means that we can go faster and fly longer, extending our ability to respond to 999 requests from the East of England Ambulance Service NHS Trust.

We would love you to get involved in our celebration year by hosting a Tea @ 15.00 party. You may wish to host your party at 15.00 hours, invite 15 people, or do it on the 15th of each month. After your event you can send us your photos for the 15th anniversary gallery on our website. We can supply you with a fundraising pack containing all you need to arrange your party and help spread the word. Your local EAAA fundraising team would love to hear from you so please get in touch to request a pack or to find out more:

Bedfordshire 01525 718517
